AGAINST THE GRAIN: How Agriculture Has Hijacked Civilization. In this controversial and prodigiously researched condemnation of our current and past systems of growing grain, Manning (Food's Frontier: The Next Green Revolution) argues that the major forces that have shaped the world—disease, imperialism, colonialism, slavery, trade,...

AGAINST THE GRAIN: How Agriculture Has Hijacked Civilization

Against the Grain: How Agriculture Has Hijacked Civilization. Drawing on the work of anthropologists, biologists, archaeologists, and philosophers, along with his own travels, he argues that not only our ecological ills—overpopulation, erosion, pollution—but our social and emotional malaise are rooted in the devil's bargain we made in our...

Against the Grain. The first agrarian states, says James C. Scott, were born of accumulations of domestications: first fire, then plants, livestock, subjects of the state, captives, and finally women in the patriarchal family—all of which can be viewed as a way of gaining control over reproduction.

Against the Grain is not without flaws; it is a wide net that is sometimes carelessly flung and Manning waits until late in the book to explain the distinction he draws between agriculture and farming or, more precisely, between raising commodities and raising food. But his fundamental thesis, that non-subsistence agriculture has created a ...

Against the Grain: How Agriculture Has Hijacked ...

Against the Grain argues that the consequences of this huge experiment could be catastrophic, and at the very least have been underestimated or ignored by the industries exploiting the new technologies. The authors have unearthed government and industry documents which show these new methods to be far from fail-safe or risk free.

Against the Grain: A Deep History of the Earliest States. Instead, he argues, people had to be forced to live in the early states, which were hierarchical, beset by malnutrition and disease, and often based on slavery. The book has been praised for re-opening some of the biggest questions in human history.

But our reliance on food made a secure supply deeply attractive, and eventually we embarked upon the agricultural experiment that has been the history of our past 10,000 years. The evolutionary road is littered with failed experiments, however, and Manning suggests that agriculture as we have practiced it runs against both our grain and nature's.

Against the Grain Quotes. "The predominant system of farming bolstered by all of this is accurately named industrial agriculture. It is capital-intensive, not labor-intensive, which largely explains the region's depopulation. Industrial agriculture considers the countryside as a factory." — Richard Manning , Against...
